

CHAT & VIDEO DATASHEET

ENTERPRISE COLLABORATION

Unleash the Power of Seamless Collaboration with Zimbra

Equip your team with a complete collaboration solution that includes email, contacts, calendar, file storage, tasks, chat and video applications. Accessible from a responsive browser-based Zimbra Web client on any device.

Do more in less time!

Keep your team connected with an enterprise-grade group chat and video conferencing. Zimbra Chat & Video helps to centralize your collaboration process and boost your productivity within a secure global infrastructure.

Zimbra Chat & Video is available for BSPs and through SaaS. Accessible from any device with an internet connection, you can stay connected with your team even when you're on the go. SaaS provides flexibility, scalability, and ease of implementation, allowing you to integrate the function into your existing workflows.

On-premises deployment is coming in 2024.

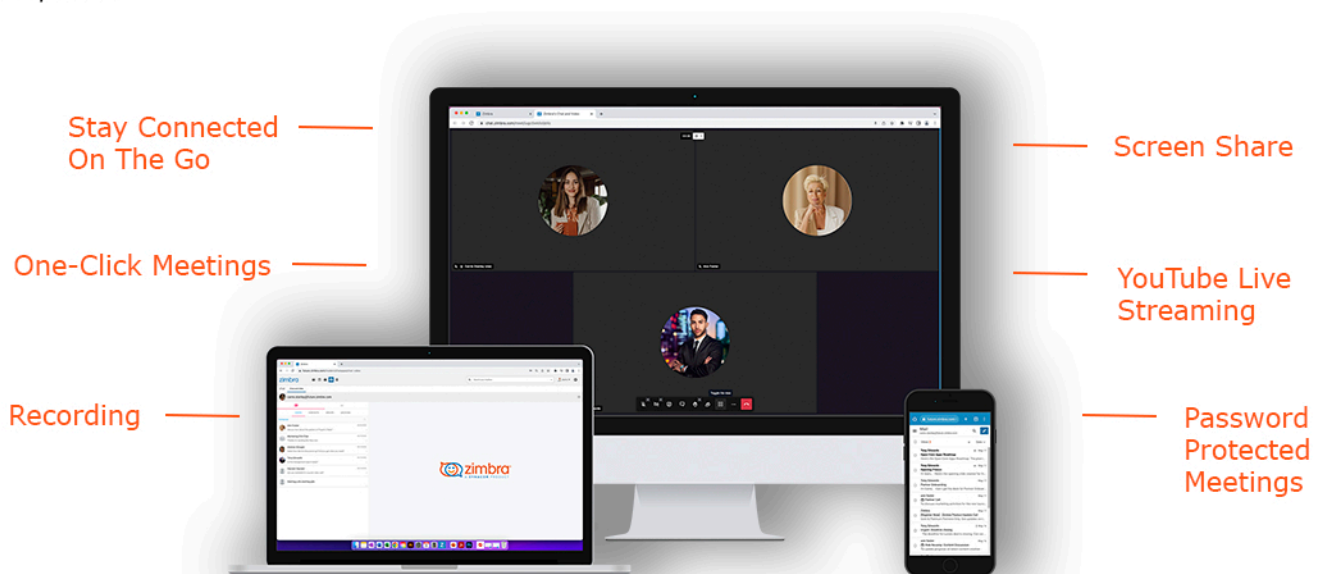

Everyone on the same page

Zimbra Chat simplifies 1:1 messaging and group collaboration. Ignite communications in all directions: top-down, bottom-up, peer-to-peer and across the whole organization. It is easy to unite all your co-workers, group content and resources with shared chats and files.

Enjoy effortless, unlimited video conferences

A click away from your co-workers and customers, Zimbra Video takes the hassle out of joining a video call. Simply set up a meeting and share a link. High quality and low latency, with a fast, lightweight interface video calls are a cinch. No longer be limited to sharing a single screen in your video calls. Zimbra Video allows everyone to share at the same time. Up to 100 participants at the same meeting.

Zimbra Video is fully integrated with Zimbra Web client, so you can join meetings directly from a calendar event or email invite. All the important event details are right there when you need them, whether you're joining from a laptop, tablet or phone.

Enhanced Collaboration

Zimbra Chat & Video connects people together in groups, channels and lists. Experience the seamless future of communication without the need for plugins or installations.
